Clinicall

Remote heart monitoring that cardiology clinics get paid for

Series B · 2026

Boston, MA · Founded 2019

The problem

- Heart-failure patients are readmitted within 30 days at high rates
- Clinics can bill for remote monitoring but lack the staff to run it

What we do

- Connected devices shipped to patients' homes
- Our nurses watch the data and escalate to the clinic
- We handle billing codes and documentation

Traction

$6.8M
ARR, September 2026

140
cardiology clinics

4%
month-on-month growth

21,000
patients monitored

Leadership

DB

Daniel Brooks

CEO

VP Operations, Harborview Cardiology Group (2012–2019)
