Ledgerly

Accounts payable on autopilot for Indian manufacturers

Seed round · October 2026

Pune, India · Founded 2022

ledgerly.example

The problem

Mid-size manufacturers process 2,000 to 10,000 supplier invoices a month, mostly by hand.

- Three-way matching of purchase orders, receipts and invoices happens in Excel
- GST input credit is lost when supplier filings don't match the books
- Late payments cost penalties and supplier goodwill

What Ledgerly does

One inbox for every supplier invoice, from capture to payment.

- Reads invoices from email, WhatsApp and scans
- Matches each invoice to its purchase order and goods receipt
- Reconciles GST credit every month
- Prepares payment runs for approval; works with Tally and SAP Business One

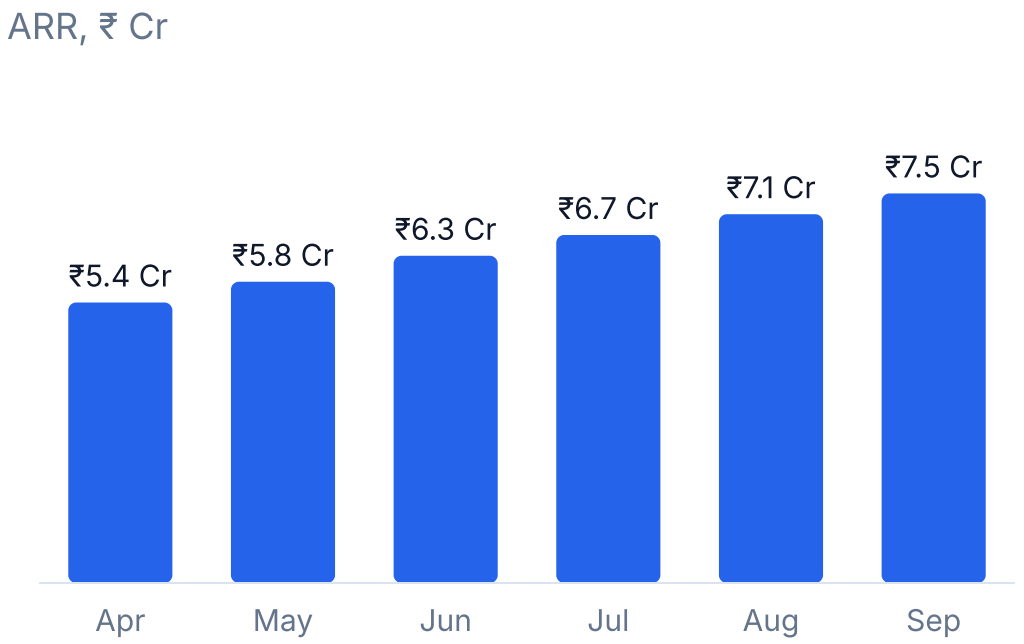

Traction

₹7.5 Cr
ARR, September 2026

92
paying manufacturers

7%
month-on-month growth

118%
net revenue retention

Business model

- Monthly subscription priced by invoice volume: ₹25,000 to ₹1.5 lakh a month
- Gross margin 78%
- Sold by a direct sales team to CFOs; average sales cycle 6 weeks

Market

A $2.1B yearly opportunity in India alone.

- 48,000 mid-size manufacturers in India
- Average yearly spend on finance operations software: $44,000
- Next: Indonesia and Vietnam from 2028

Competition

	Invoice capture	3-way match	GST reconciliation	Built for India
